

# THE BRAINERD DAILY DISPATCH

Volume 19, Number 238

BRAINERD, MINNESOTA, THURSDAY, MARCH 11, 1920

Price Three Cents

## Coal Commission Makes Partial Report to President

John P. White, Miners Representative, Did Not Sign the Partial Report

(By United Press)

Washington, March 11—The coal commission named by President Wilson to bring about a settlement of the miners' wage controversy, today forwarded to the White House part of its report.

John P. White, miners' representative, did not sign the section of the report sent to Wilson today. He plans to make a minority report, it was understood.

## British Trade Union Congress Meets Today

To Decide Whether to Call a Strike to Compel Nationalization of Coal Mines

WEBB MILLER,

(United Press Staff Correspondent)

London, March 11—The trades union congress representing more than five and one-half million, met at the Central Hotel at Westminster today to decide whether "direct action" in the form of a strike should be attempted in an effort to compel the government to nationalize British coal mines.

The congress met following the voting of British miners to strike if necessary to enforce nationalization demands.

It was believed, however, that final action will depend upon the recommendation made at these sessions of the general congress.

Will Take Political Action:

No Strike Will be Called

London, March 11—Members of the labor organization in the trades union congress have voted in favor of political rather than "direct" action to attain their demands for the nationalization of basic industries—particularly coal mines, it was announced from the session of the congress here today.

The vote, representing the workers of each local union, was 3,732,000 for political action and 1,015,000 for direct action. The vote was taken as complete defeat for the radical laborites.

The congress also rejected the miners' proposal to call a strike of the most important unions to force nationalization.

## Suffrage Struggle is Over Says Mrs. Chapman Catt

(By United Press)

New York, March 11—The struggle for national suffrage for women is over, according to Mrs. Carry Chapman Catt, who said that Delaware and Washington would be the next states to follow West Virginia for ratification of the suffrage amendment to the constitution. "We know these states will ratify," she said, "and that Connecticut will also, for good measure. Suffrage is won."

## Minnesota Potatoes Bring Record Price

(By United Press)

St. Paul, March 11—Minnesota potatoes exhibited at the Mississippi Valley exposition in St. Louis, were sold for seven cents each, being the record price for potatoes, according to a letter received by Secretary of State Schmahl from Immigration Commissioner Sherman today.

Sherman wrote that he had sold the prize potatoes—119 of them—for \$50.00.

## High Water Drives Families from Homes

(By United Press)

Red Wing, March 11—Six families were driven from their homes in East Red Wing by rapidly rising water of the Mississippi river. The ice still remains but is expected to break up as the water rises.

ROB'T UNDERWOOD JOHNSON

Robert Underwood Johnson, newly appointed United States ambassador to Italy. He is an author and editor of note, was born in Washington and educated in Indiana. He is sixty-seven years old.

## Sims Wants Hoover Called to Testify

Want Hoover to Corroborate His Testimony as to the Desperate Condition of the Allies

RAYMOND CLAPPER,

(United Press Staff Correspondent)

Washington, March 11—Herbert Hoover, former food administrator, will be asked to testify in behalf of Admiral Wm. Sims before the Senate naval affairs committee investigating the Daniels-Sims controversy.

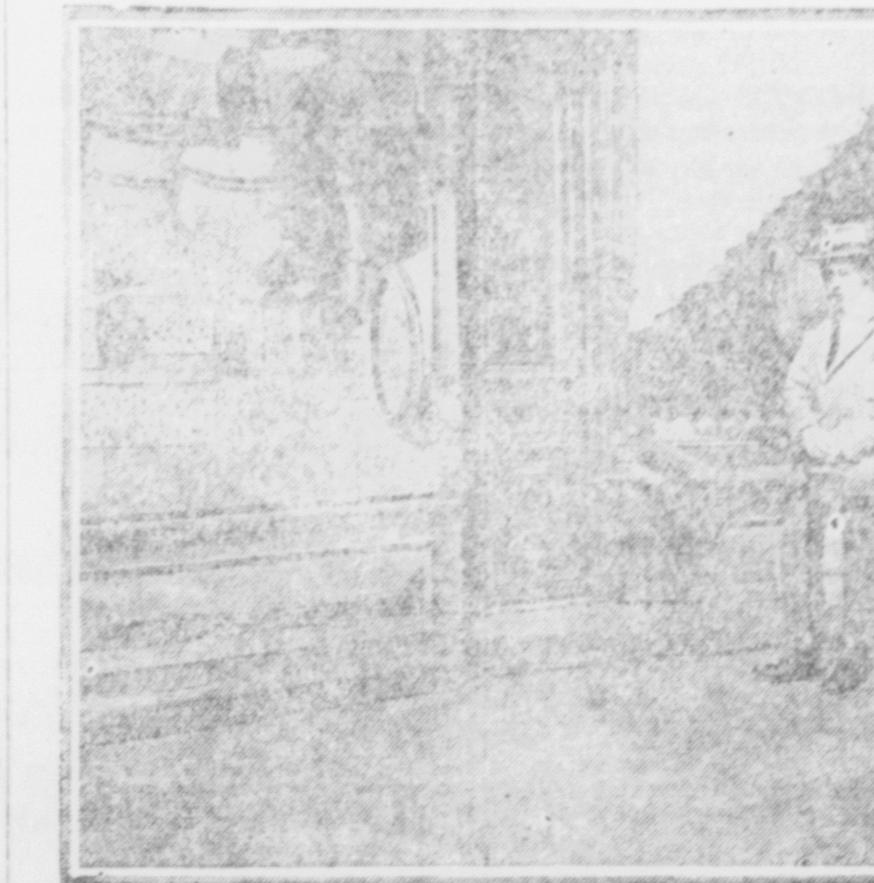

Sims today requested the committee to call Hoover and Chairman Hale.

Sims wanted Hoover to corroborate his testimony regarding the desperate situation of the allies when America entered the war. He said Hoover gave him the "first realization of the possible defeat of the allies" during a conference in London shortly after he arrived.

Sims today made the disclosure that in January, 1917, he urged Daniels to completely strip the American coast of "sea-going protection," and transfer the ships to British waters. Daniels' testimony showed he refused to entertain the suggestion. In a cable to Daniels, Sims said: "He surely realized the oversight of public opinion as to distribution of our ships, but the fact remains that we could well afford to strip our coasts of sea-going protection and concentrate ships over the great area on this side of the ocean."

Ten days later, finding his suggestion still unheeded, Sims sent another message to Daniels, again urging that American ships be transferred to European waters.

## Petrograd Shoe-Keeper Using Pictures Instead of Signs to Advertise His Wares to the Illiterate Russians

Because of the illiteracy among the Russian people, shopkeepers have pictures instead of signs painted to advertise their wares. In many cases

## War on Rent Profiteering Is Declared

By Chicago Real Estate Men Who Say Rent of Flats Has Been Increased From 50 to 100

(By United Press)

Chicago, March 11—War on profiteering landlords was voiced today by Chicago real estate men. Announcement was made by Adolph F. Kramer, president of the Chicago Real Estate Board, that plans are being prepared for building of several thousand portable houses to be built on the city's outskirts. The increased cost of rent in apartments and flats, which has raised from fifty per cent to one hundred and fifty per cent, is responsible for the portable houses.

## Berger Appeals Hearing Set for March 27

(By United Press)

Chicago, March 11—The appeal of Victor Berger from a sentence of twenty years in Fort Leavenworth for violation of the espionage act, was set off today until March 27. The same ruling was made for Berger's fellow defendant. Absence of Berger's attorney as he was at the socialist hearing in New York, was responsible.

## Steamer Ashore on Mexican Reef

(By United Press)

New York, March 11—The 4,700 ton steamer Esperanza, believed to carry about one hundred passengers, is ashore on Madagascar reef off Progresso, Mexico, according to a radio picked up at Tampa, Florida, and forwarded here today.

## Heavy Rains Reported Throughout the State

(United Press)

St. Paul, March 11—Heavy rain was reported over all Minnesota early today from Sioux Falls to Duluth.

The heaviest rainfall was at Brainerd. Thunder and lightning accompanied the storm and did a small amount of damage. Brainerd's light and power was cut off temporarily. Heavy rainfall gave rise to flood fears, but the weather bureau predicts freezing temperature for tonight, which will check too rapid drainage. It is said the weather bureau does not look for any great volume of water in the rivers unless the temperature rises.

At Red Wing six families were driven from their homes because of high water. The city is surrounded by high banks and the snow melting and running down into the valleys endangered the city.

## Wets Plan to Control Congress

NICHOLAS MURRAY BUTLER

Nicholas Murray Butler of Columbia university, who is mentioned as New York's "favorite son" candidate for the Republican presidential nomination.

## Increased Births Reported This Year

Increase Seems General Throughout the Country as Ascertained by United Press

(By United Press)

New York, March 11—The census bureau in Washington is publishing vital statistics for 1920 as fast as they can be compiled, but information gathered by the United Press today indicated the enumerators will never catch up with the population.

Reports from cities throughout the country show a general increase in births during the first two months of this year compared with the corresponding period of last year. This increase was practically uniform in all sections.

Milwaukee and Seattle were the only places who reported a decrease.

Cities, wherever figures were available, generally show a greater ratio of increase in births. Many cities report a corresponding decrease in the number of babies abandoned by parents. Many mothers who cannot support their babies to insure a good home for them, rather than to trust them to an institution, have "abandoned" them off, in some cases even before birth. Persons adopting babies prefer girls rather than boys.

In New York 22,535 births were reported this year, compared with 21,165 last year. In St. Paul the figures were 913 for this year against 721 last year. Adoptions were double.

## Senate Will Vote on Compromise to Article X

L. C. MARTIN,

(United Press Staff Correspondent)

Washington, March 11—Unless republican senators spurn the overtures being made to them by democrats, the senate will be given a chance to vote on the Watson-Simmons compromise reservation to Article X, it was apparent today.

Renewal of overtures to the republicans is considered likely to prolong the suspense in the peace treaty situation. Simmons said that the proposed compromise will be offered unless republicans "form a close corporation against any modification which Lodge himself does not sponsor."

Senate will vote on the Watson-Simmons compromise to Article X.

## Roosevelt Chatting with New York Senator at New York Republican Convention

Wild Cat Oil Stocks Cost Half Billion

By United Press

Chicago, March 11—Wild cat oil stock cost investors close to one-half billion dollars last year, Felix Renick, secretary of the New York Petroleum Exchange, said in a speech today before the national petroleum congress. Establishment of an oil exchange along the line of coffee, grain and produce exchange to curb fraudulent promotion, was urged by Renick.

## Allies Will Occupy Turkish Asiatic Ports

Say Action Is in No Way Intended to Eject Sultan From Constantinople

(United Press)

Paris, March 11—The allies have decided to occupy the ports of Ismaia and Mudania in Asiatic Turkey, a London dispatch said today.

Trebizond, also probably will be occupied, the dispatch said, with troops of the allies. Troops will be under the command of General Franchet D'Esperey of the French army.

The present allied action in Turkey is in no way intended to eject the Sultan from Constantinople the foreign office declared in a statement to the United Press. The allied military concentration, the foreign office explained, is merely to insure enforcement of the terms of the treaty of peace with Turkey. When the time comes to apply that document to show Turkey that the allies "mean business."

M. Landry, minister of marines, has ordered a redistribution of French naval forces in the Mediterranean which provides for two squadrons.

## Senate Will Vote on Compromise to Article X

L. C. MARTIN,

(United Press Staff Correspondent)

Washington, March 11—Unless republican senators spurn the overtures being made to them by democrats, the senate will be given a chance to vote on the Watson-Simmons compromise reservation to Article X, it was apparent today.

Allied leaders denied the report of extensive and bloody clashes between the Turk and allied forces now in Constantinople, but admitted the allied troops were carrying out impressive military demonstrations in an effort to calm the Turkish nationalist element believed responsible for the Marash massacre. It was predicted in some circles today that the entente's rule forbidding the Greek troops in the zone already occupied, from passing over the three mile demarcation line, will be removed giving the Greeks greater freedom of action.

## Mrs. Lingren Testifies on Husband's Behalf

(By United Press)

Minneapolis, March 11—Mrs. Oscar Lingren took the stand in the Hennepin county district court today to defend her husband, charged with the murder of Madelyn LaCount.

She testified that her husband had been faithful to her since their marriage.

In the final struggle for the gardener's liberty, his wife tried to counteract the damaging evidence introduced by the state. She corroborated the statement of Mabel Swanson that a strange man was seen near the LaCount cottage on the day of the murder.

## Mrs. Shepley Wants Husband's Name Left Out of it

(By United Press)

St. Paul, March 11—Mrs. Laura Shepley, who won the heart and took \$22,600 from Wm. Mueller of Chicago, was on the witness stand all day today in a battle of wits with Clarence Darrow, peer of the greatest criminal lawyers in Chicago.

She pleaded first of all for her husband. "Please, do not mention his name," she said in voice stressed with emotion.

"I alone, am responsible for my act. He knew nothing of this affair. He is not on trial here. Please, leave his name out of it."

## Navy Department Denies Report

That An American Squadron Had Been Ordered to Duty in the Black Sea

(United Press)

Washington, March 11—Reports that an American squadron had been ordered to the Black Sea, were discredited today at the navy department. No orders for such a move have been issued from Washington, and there is no knowledge of such orders, it was stated. The report originated in London.

ALFONSO M. SILLER

Alfonso M. Siller, new counselor of the Mexican embassy at Washington. He is an ardent Carranza supporter, and has been abroad several times in the past few years on confidential missions for his government.

(Western Photo by Western Newspaper Union)

## Suffrage Wins in West Virginia

Senator Bloch Arrives and Breaks Tie, and Another Senator Changes to Suffrage

(By United Press)

Charleston, W. Va., March 11—Suffrage supporters today were recipients of congratulatory messages from all parts of the country following their sensational victory late yesterday when the Anthony amendment of ratification was forced through the senate 16 to 13.

With only two more states needed to make the required thirty-six, attention was being directed to Delaware and Washington where the state legislatures had been called for a special session March 22.

Senator Bloch's vote after his dramatic trip across the continent, broke the tie which had existed in the senate since Monday.

Senator Gribble swung his vote to the support of the measure, making it 16 to 13.

## Mrs. Lingren Testifies on Husband's Behalf

(By United Press)

Minneapolis, March 11—Mrs. Oscar Lingren took the stand in the Hennepin county district court today to defend her husband, charged with the murder of Madelyn LaCount.

She testified that her husband had been faithful to her since their marriage.

In the final struggle for the gardener's liberty, his wife tried to counteract the damaging evidence introduced by the state. She corroborated the statement of Mabel Swanson that a strange man was seen near the LaCount cottage on the day of the murder.

Miss Smiley was only thirteen years old at the time.

Vice Forced Out  
Of Buenos Aires

BY LAWRENCE S. HAAS  
(United Press Staff Correspondent)

Buenos Aires, Feb. 12 (By Mail)—The municipal authorities of Buenos Aires have started the new year by clamping the lid down on vice. A previously adopted city ordinance closing all resorts of ill-fame as tightly as a drum has been put into effect by the police, who declare that there is going to be no re-opening.

And the slowly-perishing “night life” of Buenos Aires gave another gasp.

The popular North American conception of the Argentine capital as a city of gayety and license, patterned after the Paris idea and freer in some respects than New York, has become a misconception. This city today, as far as its after-midnight activity is concerned, is one of the quietest of its size in the world.

With the exception of a relatively small theatrical and dance hall district near the center, the town's streets are darkened, and the only noise after midnight is that made by the fast-wheeled trolley cars or the whistles of the pog-post policemen in their hourly “all's well” signals.

The former gayety of Buenos Aires could never be attributed to the Argentine people. The introduction of “night life” can be laid at the door of the foreign element here in their desire to transplant a bit of Paris on this side of the Atlantic. Five years ago the city was full of all sorts of questionable amusements. But this element in the life of Buenos Aires languished during the war and it will probably never return.

White slavers found an easy market and a clear road for their activities here a few years ago. Now their operations are at a standstill for no

The nerve force which controls the human body is similar to an electric light or phone system. The central station is in the brain—the trunk line or cable is the spinal cord from which the branches pass thru the spinal bone openings to all parts of the body. If the bones press the nerves it is like turning off the switch—the nerve supply is impaired. Then the Chiropractor finds the switch that has been turned off or tampered with, adjusts the obstruction and Nature again turns on the power. Try Chiropractic adjustments! Consultation and Spinal Analysis Free. Grade School children ADJUSTED Free.

## WOMAN'S REALM

EDWARD ABNER THOMPSON

"The Man in the Dark Who Diffuses Light" to Speak at High School Auditorium

Edward Abner Thompson, known as "The Man in the Dark Who Diffuses Light," dramatic reader, impersonator and bass soloist, will be the University Extension Lyceum Bureau speaker at the high school auditorium this Thursday evening.

The name of Edward Abner Thompson is rapidly coming to the front among the entertainers of the country. By sheer force of personality, and strength of character, he has forced himself into the forefront of readers and singers now before the public in the entertainment field.

In almost complete darkness himself, he diffuses cheerfulness, buoyancy and mirth wherever he appears.

His audiences are invariably charmed and delighted by his masterful handling of his themes, and astounded at the marvelous instinct that guides him about the stage. He takes them through the whole gamut of the feelings, from the sublimity of a Shakespearian interpretation, through the pathos of a Dickens deathbed scene, to the rollicking and side-splitting comedy of a page from Holman Day, with never a suspicion on their part that the glare of the footlights gives him only the faintest, most flickering knowledge of the limits of the platform.

### Parent-Teachers

A meeting of the Parent-Teachers association of the Washington-Lincoln schools, was held at the Washington school Tuesday evening. The following program was given:

Trio—Miss Cecil Morrison, Miss Lorraine Morrison and Walter Lowrie, with Miss Alma Brown at the piano.

Recitation—Miss Helen Marie Stadlbauer.

Piano solo—Miss Helen Reese.

Talk—M. B. Scherich.

Piano solo—Miss Alice Johnson.

Each number drew generous applause. These young people have contributed much to the success of each program given by the club and have won the appreciation of all members fortunate enough to hear them.

M. B. Scherich chose for his talk, the subject, "Keeping Your Feet on the Ground." He dwelt on the present day problems, their apparent causes, and likely results. His talk was ably given and listened to with deep interest.

At the conclusion of the program the president, Mrs. F. Riese, announced that at the April meeting Miss Peyer would give instructions in emergency nursing, after which the domestic science class would serve a fifteen cent luncheon.

### TO THE REPUBLICAN WOMEN OF CROW WING COUNTY

The attention of the women of Crow Wing county is called to the importance of attending the primary elections to be held the several precincts of the county, at the usual voting place, Monday evening, March 15th, from 7:30 to 8:30, to elect delegates to the Republican county convention to be held March 17th.

It is earnestly hoped that the women of the county will show their interest by attending the primaries.

DAY—Monday, March 15.

TIME—7:30 to 8:30 P. M.

PLACE—Usual voting place.

MRS. W. A. FLEMING,  
Chairman Women's Committee  
23312

### Missionary Circle

The Woman's Missionary Circle of the First Baptist church will meet Friday afternoon at the home of Mrs. M. A. Angel, 424 South 7th Street.

**Campaign Has Its Uses.**  
"I welcome a political campaign," said Jad Tunkins new kind of argument to take our minds off the high cost of living."

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for a list of testimonials.

Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggist, 75c.

## THE BRAINERD DAILY DISPATCH

Kelly-Nelson

On March 8th Sophia E. Kelly was united in marriage to Hjalmar Nelson at the Norwegian-Danish Lutheran parsonage, Rev. E. R. Rorem officiating. The couple was attended by Mr. and Mrs. George M. Johnson of Brainerd. Mr. and Mrs. Nelson will make their home in Brainerd. Mr. Nelson having recently been established in business at 611 Laurel St. Cordial good wishes are extended to the happy couple.

### Bible School

The Bible school of the Swedish Baptist church will meet Friday evening at 7:30 o'clock at the Anderson home, 521 Broadway north. The subject for the lesson study will be "The Doctrine of God."

### Incomplete Diagnosis.

Jack, aged three, went to see his little cousin. When he came home his mother asked him how the baby was and what it was. He replied: "Oh, mother, they're a nice little dollie, but I can't tell you what it is, because she didn't have any hair yet."

### QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get jiggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

## A GOOD SHAVE

## MORE OAK STREET PAVING

It does not take an engineer to understand that the best paving surface material is useless for paving unless there is a solid base or foundation beneath. A bituminous pavement ordinarily means a pavement with a solid substantial concrete base and a bituminous surfacing. The creosote block surfacing that is so uniformly used in St. Paul and Minneapolis is nothing more or less than the creosote blocks laid on a solid concrete base. If it was proposed to pave Oak Street with bituminous with a solid concrete base then there could be no very serious objection except that of cost. The bituminous paving at St. Cloud with which some of the members of the council are familiar and which makes some of them conscient

tiously believe that bituminous is the best paving, is in reality concrete paving, with bituminous surface. Now, bituminous paving as ordinarily laid is not the kind that the three bidders on bituminous paving before the county board and the city council proposed to construct. They proposed to put a bituminous surfacing on the present worn out useless macadam now on Oak street. For the first three or four years this will probably be a fair pavement but heavy traffic will soon cause the base to give way, as the same base has in the past given way, and the tax payers' and property owners' money, paid out for this makeshift paving, will be wasted and for years after one of the main roads leading unto Brainerd will be rough and uneven, unpleasant to use and a source of expense for repairs that never are and cannot be satisfactory.

Naturally, the property owners do not want to pay out any more money than is necessary. It has not been so many years since they finished paying for the macadam pavement and one experience of this kind should be enough. It is apparent that it is cheaper to construct a permanent pavement at a slightly greater price than a pavement that will not stand up and is only a makeshift.

Not all concrete paving constructed in Brainerd has been satisfactory but in every case it has been where the advice of expert engineers has been completely ignored by the city councils in the past. In every case where the concrete has been constructed according to specifications that even approximate those recommended by the State Highway Commission it has been entirely satisfactory. There is not a blemish or defect in all of the paving constructed under contract two years ago on North Broadway, North Seventh

## DEATH IN THE AIR

The number of deaths from diseases of the heart has doubled, in the large cities of America, in the last four years, and now exceeds that from almost any other cause.

There are now more than 7,500,000 automobile vehicles in the United States, and are likely to be 10,000,000 by the end of the year.

These two current items of information are apparently quite disconnected, and yet they may have a connection so vital and important as to command the gravest national concern.

The suggestion of relationship between them is found in the fact that the exhaust fumes from gasoline engines contain a large quantity of carbon monoxide gas, which is not only exceedingly poisonous, but is also particularly detrimental to the heart.

Its first effect when inhaled is markedly to decrease the oxygenation of the blood. This it does when mixed with the atmosphere in even so small a proportion as one part in two thousand. From that it proceeds to cause paralysis of the nerve centres which control the heart, and, therefore, paralysis of the heart itself.

There have been reported a number of deaths of persons in closed garages, apparently from unknown causes, which upon investigation were found to have been due to carbon monoxide poisoning.

Such tragedies may readily happen when a motor is running in a small closed room. But are they possible in the open air? Let us consider.

Exhaust fumes from the average automobile contain about seven per cent of carbon monoxide. The combustion of one gallon of gasoline produces at least fifty cubic feet of this deadly gas. It is estimated that in New York City alone, 700,000 gallons of gasoline are consumed daily. This means that there are injected into the air of that city every twenty-four hours some 35,000,000 cubic feet of poison gas, sufficiently virulent to vitiate to a dangerous degree seventy billion cubic feet of air.

That in itself is a formidable state of affairs. It becomes far worse when we consider that this production of poison gas is not equally distributed in either time or place, but is largely massed into less than half of the twenty-four hours and into a comparatively few of the most crowded thoroughfares. The disastrous effect of the poison fumes upon vegetation has long been noticed along the principal drives of the parks. If the gas has this effect upon trees and shrubs, in the open, it must have a far worse effect upon the much more susceptible organisms of human beings on streets where vehicles are much more numerous than in the parks, and where tall buildings on both sides convert the narrow streets

into veritable catch-sinks for noxious emanations. There is reason for believing that the air on such a street as Fifth Avenue or Broadway—with a score of cars on every block pouring forth carbon monoxide, is sufficiently vitiated to induce in those who frequent it deadly lesion of nerves and heart. What the conditions would be in a crowded vehicular tunnel under one of the great rivers, it is appalling to contemplate.

The moral is not, of course, to banish the automobile, but to get rid, in some way, of the poison gas. The automobile, it is needless to say, is one of the indispensable products of modern inventive genius, and will continue increasingly to be used. It may be chemically impossible to avoid the evolution of carbon monoxide in combustion of gasoline. But it surely should be possible for some inventive genius to find a way of neutralizing it, or of preventing its free and crude emission into the air.

Methods were readily devised in the war for manufacturing poison gases and hurling them against the enemy. It would be an intolerable reproach if in time of peace we could not with equal efficiency, protect ourselves against them when they are emitted as a by-product of an indispensable mechanism of civilization.

## NO AUXILIARY

This Thursday is the second time within a half year period when Brainerd has been shut off from light and power for a ten hour stretch.

The power company has a gas auxiliary, but inquiry at the local plan revealed that it's not impressed into service to tide over, an emergency, because the auxiliary cannot "begin to handle the load." The power demand now is 400 or more horsepower.

Either the auxiliary should be enlarged to handle emergencies or current should be generated and those industries like hospitals and newspapers which must operate on schedule time given power.

It is a matter which the water and light board should take up.

## HISTORICAL PAGEANT

Red Wing is to stage a big pageant August 5 and 6 reviewing the history of that section. This is a pointer for Brainerd and some time this town can stage one too, for we have history galore here from pioneer days to present time.

Brainerd's pageant day could also review railway history and the growth of the Northern Pacific and could be made a home-coming for railway and other Brainerd men.

The idea is a most feasible one and if worked out properly would be most successful and give the city a wealth of advertising of its resources and advantages.

Election Fraud Trials  
Nearing Their End

J. L. O'SULLIVAN,  
United Press Staff Correspondent.

Grand Rapids, Mich., March 11—Due to the illness of Paul King, one of the chief defendants in the Michigan election fraud trial, the court recessed today. Attorneys for the defendant said King was greatly improved and would be able to appear in court tomorrow. Attorneys and the court plan to place the case in the hands of the jury by the latter part of next week. King will be the last defense witness to testify.

Not in Modern Flats.

From the time of the Greek philosophers, Epicurus and Democritus, until about 1890, heat was considered a form of matter.

A Long-Felt Want.

What this world needs is a spray and a germicide for the humbug.—Wilmington News.

## Benefit in Joy Giving.

When you once get started in joy giving it's easy to keep it up. The fact that you give joy brings candidates for your magic touch constantly before you. The returning benefits of having given joy keep your supplied with the means of joy giving. So you just direct the ever enlarging stream that through you ministers to your fellows. And your own joy increases with each new expression of your good will. The joy giving habit grows upon you and you would be perfectly miserable without the chance of helping others to happier days. It's real joy.—Grit.

(Seal)  
My commission expires Sept. 7, 1923.

Start Tomorrow  
and Keep It Up  
Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well; what a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnation matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

## EARLY MARCH STORM DOES MUCH DAMAGE

Lightning and Thunder Hurled on Atmosphere Close to the Freezing Point Thursday Morning

### THE IRON EXCHANGE BUILDING

Roof Leaked and Tenants Suffer Damage, Heaviest Loss by Northern Home Furnishing Co.

One of the earliest March rain storms on record broke over Brainerd about 2 o'clock Thursday morning, accompanied by 81 hundredths inches of rainfall and a plentiful supply of lightning and thunder. The temperature recorded was 34 degrees.

At the Iron Exchange Building water forced its way through the roof and damaged several tenants below. The heaviest loser, the Northern Home Furnishing Co., estimates losses to fine furniture, rugs and bedding at close to \$5,000. The water entered at two places, tearing down plaster. On the second floor water soaked the inner office of the Chamber of Commerce. On the third floor some damage was done the Masonic Hall and Labor hall, according to the janitor.

The electric current failed soon after 3 in the morning, a break occurring on the main transmission line west of Brainerd.

Lightning struck the barn of W. D. McKay on his farm northwest end of city. The loss is estimated to be about \$2,000, said Mr. McKay. As it was isolated he was unable to carry any insurance. The structure is 30 by 80 feet in size, with heavy cement walls. Within were ten tons of clover hay and a hayloader. If the cement walls are unimpaired, the damage may not be so heavy.

Lack of power shut off the local battery system of the Western Union Telegraph Co. and also handicapped the train dispatching system, the latter having to depend on the main battery system. Lightning struck a number of fuses, burning them out at the depot.

### Power Line Struck

Lightning struck the Cuyuna Range Power Co. line and 25 men were soon on the job to locate and repair the break. The scene is west of Brainerd deep in the woods.

The gas auxiliary of the power company is now entirely inadequate to meet the situation in case of a break. Power alone used during the day amounts to about 400 horsepower. The lath mill uses 100 horsepower, the planning mill and Kampman & Son sash and door factory use

## CHAMBER COMMERCE REGULAR MEETING

Committee on Permanent Secretary Reported and a Houghton, Mich., Man May Accept

### EXPECTED HERE ON TUESDAY

Rev. E. C. Cooke Reports on Hamline College, Committee Named to See About Site

At the regular meeting of the Chamber of Commerce the committee on permanent secretary reported having negotiated with Pat Cook of Houghton, Mich., and that the latter was coming next Tuesday to look over the ground. A special meeting of the Chamber will be held Tuesday preceded by a supper.

Rev. E. A. Cooke reported on Hamline college and his address created considerable enthusiasm. A committee of three, Rev. Cooke, O. A. Peterson and C. L. Motl, was appointed to look up a site.

President F. H. Simpson presided at the meeting and R. D. Stitzel was secretary.

The advisory board had a meeting this afternoon at 4 o'clock.

considerable. In addition there are many small motors in the city.

## HELD FAST TO THOSE FISH

Indianapolis Man Was Taking No Chances of Losing the Prizes He Had Secured.

Tom Genolin, of the railway mail service, tells a thrilling story of how once upon a time he was tempted and fell; how in the early hours of morning he slipped away to "posted" streams and drew from thence five of the most beautiful bass ever seen. The climax of his story reads thus:

"The glorious day was peeping and creeping through the silent trees when I gathered up my bunch of beauties and started homeward. I had not gone far when I laid them in a clump of grass while I filled my pipe. When I started to pick them up again lo and behold they were gone. A slight stir under a nearby bush brought visions of some prowling thief and I threw myself prone upon the bush and clutched for the place where the fish might be. That is when I awoke and gathered myself up from the bedroom floor where I lay clutching a jangling alarm clock."

Mr. Genolin thus ends the story: "The tragic and unbelievable part of my story is yet to be told. The day after the incident related I went to the pool concerning which I had dreamed and there I fished precisely as I fished in my dream and I caught five beautiful bass precisely as I had caught them in my dream and, lastly, I returned home with them, but not once did I lay them down in a clump of grass!"—Indianapolis News.

FOR SALE—All modern seven room house on No. 7th St. Inquire 419 No. Broadway. A. C. Weber. 8228-2361f

FOR SALE—To rent shed or small room for storage purposes. Athletic Tea Co., Box 454, Brainerd. 8242-23713

## "BLUE SKY" LAW MAY BE PASSED

VOLSTEAD BELIEVES HIS BILL WILL BE PUT ON STATUTE BOOKS THIS SESSION.

## ITS NEED HAS BEEN URGED

Pending Measure Seeks to Prevent the Sale of Fraudulent Securities—Swindlers Are Getting Liberty Bonds for Worthless Stocks.

By JAMES P. HORNADAY.

Washington.—"Blue sky" legislation, designed to prevent the sale of fraudulent securities, now seems assured before this session of congress ends. The capital issues committee, which was called into being during the war, first called attention to the need for such legislation. When it passed out of existence the federal reserve board renewed the plea. It is asserted that during the last year fraudulent securities in large quantities have been marketed. A favorite plan was to persuade holders of Liberty or Victory bonds to trade these bonds for the securities.

Now Chairman Volstead of the house committee on the judiciary has taken the subject in hand and a bill introduced by him will be made the basis for legislation, if it is not accepted without change. Mr. Volstead explains that he introduced this bill because he was convinced that some sort of "blue sky" law must be put on the statute books to protect government bonds from being swapped for practically worthless, highly speculative stocks, and to protect capital generally.

Provisions in Volstead's Bill.

This new measure would enlarge existing law and provide an entirely new remedy for its enforcement. It seeks to prevent the commission of fraud before it is consummated, while under existing law frauds can be punished only after they have been perpetrated. Then, too, the existing law covers only frauds through the medium of the mails, while Representative Volstead proposes to include all instrumentalities of interstate commerce—telephone, telegraph, express companies, etc. Mr. Volstead thinks it is probable no hearings will be held upon this bill because extensive hearings have been held on the general principle of "blue sky" legislation and they are in printed form, available for all members of congress.

It will expedite passage of this safeguard, he thinks, to eliminate further hearings. He expects to have the measure passed before June, when congress hopes to recess in time for the political conventions. The Volstead bill provides that if it shall appear to the attorney general that in the issuance, sale, promotion, negotiation or distribution of any stocks, bonds, notes or other securities that involves the use of the mails or any agency of interstate or foreign commerce, any person, partnership or corporation is employing or about to employ any device, scheme or artifice to defraud or for obtaining money or property by means of any false or fraudulent pretense, representation or promise, and he believes it to be in the interest of the public that an investigation be made with a view to the issuance of an order, as provided in the bill, he may require such person, partnership or corporation to file with him a statement in writing, under oath.

The kidneys and bladder suffer from the wear and tear and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lameness (pain in back), rheumatic pains, gout, etc.

Note: "Anurie" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anurie" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lameness, gout, and the body is put into a clean, healthy state.

That kidneys and bladder suffer from the wear and tear and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lameness (pain in back), rheumatic pains, gout, etc.

The Volstead measure also provides that the attorney general, upon evidence satisfactory to him, in case of the issue, sale, promotion, negotiation or distribution of any stocks, bonds, notes or other securities, involving the use of the mails or any agency of interstate or foreign commerce, where any person, partnership or corporation is employing or about to employ any device, scheme or artifice to defraud or for obtaining money or property by any false or fraudulent pretense, representation or promise, may issue and cause to be served an order requiring the guilty party to cease and desist.

If it appears to the attorney general that an irreparable public injury is imminent unless such order is issued before a full investigation can be made, he may, pending such investigation, issue such order, but it shall be accompanied by a request for information as to the facts relied on in issuing the order, and such temporary order shall remain in force only until such information is furnished and two days thereafter.

The bill carries a clause making a fine of not more than \$10,000, or imprisonment for not more than ten years, the penalty for violation of the restraining order of the attorney general.

Malicious Surmise.

"I heard a rich man say the other day that he envied poor people their freedom from care."

"I'll bet he's been caught evading his income tax."

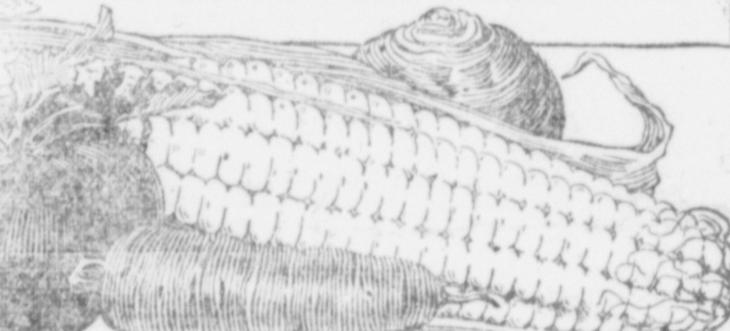

## Winter Meals From Your Summer Garden.

IN the cold winter, when canned or fresh vegetables are so expensive, how fine it is to be able to go to the fruit closet and select a jar of home-canned beans, peas, beets, carrots, sweet corn, etc.

Home-canning, or cold packing, proves most satisfactory when the vegetables are fresh from the garden. All varieties best suited to canning are easy to raise and big yields are the rule when grown from Northrup, King & Co.'s Seeds.

For 36 years our seeds have made gardening a source of pleasure and profit to thousands of "back yard gardeners." Join this vast gardening army—go to your dealers early and select packets of all the varieties you are fond of, from the convenient Northrup, King & Co. Seed Case. Standard size packets are only a nickel this year—and think of all the vegetables you can raise from one packet.
